Hello - Kocfelda Petr

Hey there how you doing
I just wanna say something
Looking at you smiling
Got my heart start flying

Time is passing slowly
When you're standing close to me
World just fades away now
Nothing else could matter how

Ref.:
Hello hello my shining star
You're the one who stole my heart
Never wanna be apart
Hello hello my shining star

Hey now can you hear me
Whispering so sweetly
Every word I'm saying
Hope your heart is racing

Time is passing slowly
When you're standing close to me
World just fades away now
Nothing else could matter how

Ref.:
Hello hello my shining star
You're the one who stole my heart
Never wanna be apart
Hello hello my shining star

break

Ref.:
Hello hello my shining star
You're the one who stole my heart
Never wanna be apart
Hello hello my shining star
